

# Environmental inventory

Where applicable, the following sites have been scored for their conformity with the NPPF Local Green Space (LGS) criteria. Sites scoring 25 and above are recommended for inclusion as Local Green Spaces and afforded protection from development. Other sites scoring 15 and above have features of high (natural and historical) environmental significance which should be conserved

	1. OPEN SPACE OF COMMUNITY SIGNIFICANCE										
1	<p><b>Church Langton allotments</b></p> <p>Hanbury Trust property, historically the kitchen gardens for the Hanbury Schools (1873). Eight 'allotments', in various states of management. Trees include a specimen of the local apple variety <i>Langton Nonsuch</i> (18<sup>th</sup> century), plus other native and ornamental trees; sheds and greenhouses.</p> <p>With the adjoining churchyard, this is part of a locally important wildlife site (invertebrates; birds, mammals) with at least 4 BAP species birds.</p> <p>Highly valued by the community as an amenity and for its contribution to the village landscape.</p> <p>Designated <b>OSSR</b> (Allotment) by HDC, 2011, although access is only for paying allotment-holders and students on school visits. Also HDC 'important open land' (2015)</p>	3	4	4	4	3	2	3	2	3	28
2	<p><b>Churchyard of St Peter's Church</b></p> <p>Probably on an early Christian (9<sup>th</sup> century) minster site and certainly from c.1267 AD. Largely 18<sup>th</sup>-19<sup>th</sup> century marked burials, with some Swithland Slate headstones; ornamental and native trees including yew, cedar, etc. Locally significant for biodiversity (birds, mammals and invertebrates). The church is Listed Grade II*.</p> <p>HDC <b>OSSR</b> (Burial Ground) and 'important open land' (2015)</p> <p>Statutorily protected by secular and ecclesiastical legislation; *LGS designation would not add to this.</p>	3	4	4	4	2	4	4	4	3	*32

<b>3</b>	Vacant plot, Church Langton Walled and fenced plot, possibly remnant glebe land. Overgrown – trees and scrub – following clearance c.2001 and subsequent abandonment. HDC 'important open land' (2015)	0	2	4	0	1	0	1	1	2	<b>11</b>

<b>4</b>	Large arable field providing valued view from St Peter's church west door northwards to open country.	0	4	3	3	0	2	2	0	1	<b>15</b>
<b>5</b>	Large (15ha), semi-improved grass field with Enclosure (1792) hedged boundaries to east, south and west (Stonton Road); short sections of 19 <sup>th</sup> and 20 <sup>th</sup> century hedges in north and south. The odd shape appears to indicate incomplete integration of the rectilinear Enclosure field pattern with the houses and crofts of the village and the boundaries of the medieval open fields which it replaced. Well-preserved ridge and furrow with 's'-shape ridges (indicating preservation of complete furlongs here), several adjacent 'lands' with ridges in different orientations (on changes of slope within the medieval open field), headlands and balks, and probable course of an old track or sike.  This field's location at the edge of the built-up area, on an east-facing hillside, provides highly valued panoramic views of Langton Caudle and surrounding countryside.	1	4	4	3	1	3	2	3	1	<b>22</b>

<b>6</b>	<b>'Thorpe path' Open Space</b> Narrow, improved grass field, probably remnant of parts of two adjacent medieval crofts associated with dwelling sites later developed for the Hanbury School. Currently divided by a modern fence separating footpath A79 from the north part (which adjoins the field behind the modern school). Species-rich hedge on (early medieval?) south boundary. Footpath A79 is of at least 12 <sup>th</sup> century origin; it was the old way from Thorpe Langton to the mother church (St Peter's). With its rural setting and bounding hedges, this site is highly valued for its tranquillity and is very well used. The two fields provide the village's only substantial and accessible 'public' open space. Although mapped (HDC, 2011) as <b>OSSR</b> (Amenity Open Space), the land is privately owned and only the Right of Way has legal public access.	3	4	4	4	4	3	2	3	2	<b>29 LGS</b>
<b>7</b>	Paddock/ornamental garden associated with Leadclune Court (c.1792). Lawns and ornamental/native trees, old wall on boundary with Church Causeway. The house is listed Grade II. HDC 'important open land' (2015)	0	4	4	3	0	3	2	2	2	<b>20</b>

<b>8</b>	Semi-improved grassland, grazing land. Indistinct earthworks (possible house platforms and cultivation strips). Mature hedgerow with standard trees to E and S; fairly recently-planted (50yrs?) ornamental trees within the field give it a parkland appearance.	0	4	4	3	0	3	2	2	2	<b>20</b>
<b>9</b>	Large paddock surrounding new house. Poor grassland, indistinct ridge and furrow (extends under Enclosure hedge into site 11 to west) and scrub.	0	3	4	2	0	1	1	0	1	<b>12</b>
<b>10</b>	Semi-improved grass field, Enclosure hedges to west, east and south. Ridge and furrow of two 'lands' ('s' shaped ridges) and a rectangular platform/earthwork in northwest corner.	0	3	4	2	0	2	1	2	1	<b>15</b>

<b>11</b>	Small plot associated with Langton Arms PH, presumably part of a medieval croft.	0	4	4	1	0	1	1	1	1	<b>13</b>
<b>12</b>	Church Langton village 'green' Mown grass, mature oak tree and ornamental plantings (cherry, horse chestnut, etc.); 20 <sup>th</sup> C war memorial; entrance gate and walls (Listed Grade II) of the Old Rectory. <b>13</b>	Grounds of The Old Grange (1780s). Ornamental gardens with lawns, driveways, stables, mature trees and features, including ironstone boundary walls (Listed Grade II). The house is Listed grade II* HDC 'important open land' (2015)	0	4	4	2	0	2	2	2	2	<b>18</b>
<b>14</b>	Rough ground, grassland and scrub associated with row of cottages. The scrub area provides habitat for 'garden' birds, including 3 BAP species.	1	4	3	1	0	1	1	1	2	<b>14</b>
<b>15</b>	[not used]										
<b>16</b>	East Langton Cricket ground Important community open space, although part of East Langton Grange estate. Developed, using spoil from local railway construction, over ridge and furrow land in about 1883 by J W Logan, the owner of the Grange, it was in use until 1907, reverted to grazing land until 1935, since when it has been a well-known Leicestershire ground.	3	4	4	4	3	3	3	2	3	<b>29 LGS</b>

	<p>Also used for community events, the field with its boundary hedges and mature trees enhances EastLangton's traditional village ambience.</p> <p>Adjoining strip to west historically provided access from East Langton Grange to Church, now effectively out of use. Rough grass with overgrown (?18<sup>th</sup> century) hedgerow to west. Faint earthworks (house platforms, etc.?).</p> <p>Now sub-divided by fences and mature hedges and presumably in multiple ownership. A mosaic of orchards, rough and good grazing, gardens, etc. with trees and bushes.</p> <p>Local significance for wildlife, including 7 BAP birds species and 1 mammal.</p> <p>Although in the historic settlement core (Historic England MLE 9327) and within the existing Limits to Development (HDC 2015) it remains largely undeveloped.</p>	1	3	3	2	2	2	3	3	3	<b>22</b>

Locally significant for wildlife and landscape. Access from footpath A75, which follows the pre-1792track between East Langton and Thorpe Langton.

	BAP species records include birds (9 spp), reptiles (1)and mammals (3). District-level geomorphological and biodiversitysignificance; highly valued landscape.										
<b>RC2</b>	Langton Brook riverine corridor. Modified (part) and semi-natural lowland stream with areas of streamside vegetation. Local level (or better) biodiversity significancefor plants, invertebrates, birds, mammals.										<b>m/a</b>
	<b>3. SITES WITH EXTANT HISTORICAL FEATURES</b>										
<b>M L E 14 63</b>	St. Anne's Well A natural chalybeate (iron-rich) spring where Ice Age sand and gravel meets the underlying, impermeable Jurassic clay. The water now emerges into a brick 'well'(dating from mid-18 <sup>th</sup> century, when the feature was protected under the terms of the Enclosure Award for East Langton) and collects in a pool. Although the English Heritage citation dates the use of the well from the early medieval period, recent research(in Wood, 2010) proposes its origin as Anu's well, a Celtic (pre-Roman) holy site, in continuous use and veneration by people from surrounding districts until modern times. Also used in 18 <sup>th</sup> century as a drinking water supply 'in dry weather' (Nichols 1798). Site of high historical and cultural significance.	2	2	4	2	2	3	3	4	2	<b>24</b>
<b>M L E 93 28</b>	Medieval and post-medieval historic settlement core of Church Langton village.										<b>n/a</b>

<b>MLE 1466</b>	Area of earthworks, faint rectilinear features, perhaps house platforms associated with the Manor site (MLE22198).	1	3	3	2	2	3	2	3	1	<b>20</b>
<b>MLE 22198</b>	Area of earthworks on site of 'Hall Close' (1792 map): rectilinear and ovoid features thought to be part of a medieval manorial centre (hall) and settlements (also site21). Surrounding fields have (contemporary?) ridge and furrow.	1	3	3	2	2	3	2	3	1	<b>20</b>
